DATA_MCTRL4K V1.3.0.0 STD Release Notes

[Supporting Software]

NovaLCT V5.4.2 or later

[New Features]

None

[Improvements]

1. Improved firmware upgrade stability and robustness, enhancing device compatibility and ensuring more reliable performance post-update.

2. Optimized the front panel shutdown button trigger mechanism to support a long press for a confirmation menu, reducing accidental operations.

3. Enhanced the system information query mechanism for more accurate display of hardware version and other details.

[Changes]
