NovaStar H V2.0.0.6 Release Notes

Release date: 18 June 2026 | Applicable models: H2, H5, H9, H9 Enhanced, H15, H15 Enhanced, H20

Supporting Software

- NovaLCT V5.8.1
- VICP V12.0.0

New Features

None.

Improvements

1. Optimized the displayed OSD content.
2. Optimized the link stability of the H_4xfiber sending card.

Bug Fixes

None.

Important Update Note

Due to firmware package size limitations in versions earlier than V1.9.4.0, updating directly to V1.9.7.0 or above is not supported. First update to an intermediate version: V1.9.4.0, V1.9.5.0, or V1.9.6.0.
