H V2.2.0.1 Release Notes

Release

1. 2026.08.18 H V2.2.0.1 (H2, H5, H9, H9 Enhanced, H15, H15 Enhanced, H20)

Supporting Software

1. NovaLCT V5.8.1
2. VICP V13.1.0

New Features

1. None

Improvements

1. Optimized OSD display performance.
2. Optimized interactions related to the H_4xfiber input card.

Bug Fixes

1. None

Notes

1. Due to firmware package size limitations in versions earlier than V1.9.4.0, updating directly to V1.9.7.0 or above is not supported. Update to an intermediate version among V1.9.4.0, V1.9.5.0, or V1.9.6.0 first.
